

Client Testimonials

Read what our clients are saying about RoadBotics

“RoadBotics gives us a better overall road program by helping to target our efforts - we now fix the right roads at the right time. This means **major savings on staff time.**”

- Stacey Graf, PE
Bethel Park, Allegheny County, PA

“When I get a call about a road issue, I can quickly open the map, pull up an image along with the overall condition of the road - this provides context when **resolving citizen complaints.**”

- Robert Smith, City Engineer
City of Cumberland, Allegany County, MD

“We want to move towards a more thorough preventative maintenance program with RoadBotics. For us, an annual scan is pretty good. Collecting that data over time will **help us get out in front of things.**”

- Scott Coker, Public Works Director
City of Macomb, McDonough County, IL

“It is a very targeted, lean and mean road condition delivery package. RoadBotics has made us more targeted and given us **more objective data than ever.**”

- Ed Andrews, Public Works Director
City of Washington, Tazewell County, IL

“If I would go to another community, I would use RoadBotics. If I met someone who was new to the road monitoring, **I would recommend RoadBotics.**”

- Rudy Sukul, Public Works Director
Mt. Lebanon, Allegheny County, PA
