

	FOR MAINTENANCE	FOR PLANNING	
	<b>ROADWAY MAINTENANCE</b>	<b>ROADWAY</b>	<b>ROADWAY PLUS</b>
Ongoing platform and secure cloud server maintenance and updates, unlimited bandwidth	●	●	●
Dedicated Customer Experience Expert	●	●	●
RoadSense and RoadNav for data self-collection	●	●	●
Artificial Intelligence analysis	●	●	●
<b>Platform Features</b>			
RoadWay Online Platform	●	●	●
Virtual Driver	●	●	●
Exportable data (.csv)	●	●	●
Alternative data files (.csv and shapefiles)	●	●	●
Color-coded pavement condition ratings from 1-5 (network, segments, points)		●	●
<b>Toolbox Features</b>			
Dynamic Segmentation (basic reporting only)		●	
Dynamic Segmentation (basic + distress reporting)			●
Area and Distance tools	●	●	●
<b>Administrative Panel</b>	●	●	●
<b>Embedded Maps</b>	●	●	●
<b>Road Report Analysis</b>		●	●
<b>Individual Distress Identification (points)</b>			
Pothole Detection (layer and count)	●		●
Fatigue Cracking Detection			●
Transverse and Longitudinal Cracking Detection	●		●
Patches/Sealant Detection			●
Surface Deterioration Detection			●
Pavement Distortion Detection			●
<b>Distress Filtering on Points (within segments)</b>			●
<b>Segment Distress Statistics (segments)</b>			●
<b>HD-PCI Ratings (network and segments)</b>			●
<b>Individual Distress Analysis</b>			●
