

Fast, Objective Road Assessments

Helping governments and engineering firms make data-driven decisions

RoadBotics by Michelin empowers cities and towns to make objective, data-driven decisions about their roads and infrastructure. We automate inspections and generate actionable data about road networks. Our detailed maps, unbiased ratings, and practical tools save time and taxpayer dollars for hundreds of communities.

Step-By-Step Process

1 Send or upload a map of your road network to RoadBotics by Michelin.

2 Use our apps to seamlessly collect image data of your road network.

3 Each image is rated by our artificial intelligence, using a scale of 1 (best condition) to 5 (worst condition).

4 View your imagery and ratings mapped on RoadWay, our interactive online platform.

What You Get

In addition to your RoadBotics by Michelin RoadWay Assessment, you'll also receive:

Ongoing Customer Support

5-Level Rating of Road Conditions

Secure Cloud Storage of Image Data

Planning Tools

GIS and CSV Spreadsheet Data for Pavement Management

Embedded Maps and Access Sharing
